DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffry Nelson on 2 June 2004. The application has been amended as follows:

PLEASE CANCEL CLAIMS 55-69.

Allowable Subject Matter

2. Claims 1-4, 6, 8-15, 17-32, and 34-48 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest applicant's claimed method. In particular, the subject matter not found was the method of removing excess fluid from a patient, adjusting withdrawal rate based on withdrawal pressure, filtering the blood through a filter with a specific surface area, and maintaining the rate of fluid removal from the blood at a low rate, along with the other steps and limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

4. Newly submitted claims 55-69 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The method claimed in claim 55 does not require the low flow rate of the pending claims. The claimed filter is a device associated with the new method, and both sets of claims will be considered in a divisional application.

5. During a telephone conversation with Jeffry Nelson on 2 June 2004, a provisional election was made without traverse to prosecute the invention of the pending claims, claims 1-48, exclusive of cancelled claims. Claims 55-69 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention. Furthermore, this application is in condition for allowance except for the presence of claims 55-69 to an invention that is non-elected without traverse.

Accordingly, claims 55-69 have been cancelled in paragraph 1 above.
